

## Advanced pain relief...

Our progressive practice combines a gentle treatment approach with some of the latest state-of-the-art equipment available. Our patients benefit from the modern outpatient surgery center which is conveniently located at one of our area's leading hospitals.

We can provide you and your family with unique, full-service foot care. This includes the most advanced diagnostic and nonsurgical treatment techniques. We also offer the most up-to-date methods in the effective surgical treatment of your foot problems. A variety of therapeutic options are yours to explore:

- Individualized physical therapy
- High-tech lasers
- Diagnostic MRI/CAT scans
- Wide range of medical consultants
- Safe and effective anesthesia techniques
- Chronic pain management services

**Heel and arch pain** are halted with the newest solution in foot pain – orthotics. We can custom design orthotics using a special mold of your foot. These special shoe inserts can be worn with sports, work, or dress shoes and are virtually invisible. The best part is that orthotics relieve pain – without the necessity of surgery.

*“Orthotics are virtually invisible shoe inserts designed to relieve heel and arch pain without surgery.”*

**In - grown and fungus nails** can be safely and comfortably treated with the latest in-office treatment methods. With these effective and gentle techniques, you're usually back to your normal activities quickly.

**Bunions and hammertoes** can lead to serious arthritis in foot joints if left untreated. This can severely limit your work and social life. They can be corrected more effectively, with less discomfort and faster recovery time, using techniques with proven results. Our bunion patients are usually on their feet before they know it.

**Nerve problems** can cause your feet to cramp, go numb and produce sharp pains. When these symptoms occur, we carefully monitor your condition and keep you from developing serious problems.

*...for results you'll love.*

In fact, our offices are the best equipped in the state. This means that your foot problems can be taken care of *faster, easier, with less pain and with less time for recovery.*

*You'll love our staff, too.*

We take pride in making you and your family feel comfortable and at ease. So, you'll always find us ready and waiting to answer questions about treatment, or help with insurance forms.

We've invested in some of the latest equipment to get you back on your feet, pain free.

*“Safe and effective techniques with proven results can help ease chronic and recurring foot pain.”*

And, except for occasional emergencies, we won't keep you waiting because we know your time's valuable, too.

*But, our concern doesn't stop there.*

We're concerned about you between visits to our office. So, we always follow up with a phone call after surgery to see how you're getting along.

*“Please feel free, at any time, to discuss any concerns you may have with the doctor or with the staff.”*

*Special expertise takes special knowledge.*

Extensive postgraduate work and credentialed teaching experience have put our level of expertise above and beyond the norm. Drs. Mandel and Davis are certified by the American Board of Podiatric Surgery. In addition, they are elected members of the American College of Foot and Ankle Surgeons and have a number of hospital affiliations in the community.

These achievements and affiliations – plus our experience of 20 years – assure you of receiving the type of quality care that is thorough, accurate and effective for your foot problem.

*American Board of Podiatric Surgery*

*American College of Foot and Ankle Surgeons*

*Members: American and Missouri Podiatric Medical Associations*

*Members: Arthritis Foundation's Western Missouri Chapter*

*Members: American Diabetes Association*

*Find out how we can help you walk away from foot pain.*

We start with gentle treatment. Then we add up-to-date equipment and the most advanced treatment methods. We offer effective nonsurgical alternatives to surgery. And a friendly, caring attitude. Plus doctors and staff dedicated to providing it all for you. It's a combination that has helped thousands walk away from foot pain. Now, let us help you. Call today to schedule a consultation.

*If you have insurance...*

We'll also take care of all of your insurance paperwork for you. And since foot care is covered by most insurance plans, you'll probably have to pay no more than your co-pay and deductible.

If you don't have insurance, we have a number of easy payment plans that will let you live within your budget, but *without* foot pain.

- Medicare and most insurance plans accepted
- Help with insurance forms and confirmation of coverage
- Payment plans available

*We hope you choose our practice to help you resolve your foot problem. Our goal is to get you feeling better as quickly as possible so that you can once again enjoy those activities that require the use of your “valuable feet”!*

## *It's never too late to get them feeling great again!*

*We'll get you back in your favorite shoes again.*

Experts say that 85 percent of us have some form of constant or frequent foot pain. If you stand or walk a lot, you're even more likely to have painful feet. In fact, as time passes, untreated foot problems usually get worse which can affect your legs and your lower back.

Patients often tell us they think this kind of pain is normal. It's not! We are Foot and Ankle Specialists, your foot and ankle specialists. Our staff has dedicated our professional careers to helping people end their foot pain.

We have treated everything from the most common conditions....

- Bunions
- Hammertoes
- Corns
- Calluses
- Warts
- Ingrown nails
- Fungus nails
- Pinched nerves
- High-arched feet
- Flat feet

*Back Left to Right: Dawnn, Hillary, Betty  
Front Left to Right: Leonna and Mary*

....to the most complex problems

- Diabetic foot conditions
- Circulatory disorders
- Arthritic foot problems
- Sports injuries
- Stress fractures
- Sprains, breaks

*Helping people of all ages.*

If pain is making you dread every step, call on us to relieve your problem. Because only a specialist can help relieve your pain, as well as give you advice on how to avoid it every day.

Whatever the problem, and whatever your age, you can be confident that effective treatment is available. And because we have years of experience treating problems just like yours, you can trust us to give you the very best care.

Your foot-care needs are unique to your age. That's why we treat foot problems for people of all ages, and all interests.

Active, hard-working adults can't afford to let foot problems slow them down. So, for specialized care and a variety of treatment options, come to us as soon as you notice any problems.

Athletes consult us with confidence. We continue to stay current with the latest developments in the evolving, new field of sports medicine.

Young children should have a professional examination as soon as they begin standing. Little problems like flat or high-arched

feet, in- and out-toeing, and knock-knees can become big problems when your children reach adulthood. But we can help – with orthotics or surgery. And, of course, our touch is gentle. Your child will feel at ease.

Seniors are prone to special problems like arthritis, diabetes, and circulatory disorders. With early diagnosis and regular monitoring, we help seniors keep walking in comfort.
